A SPECIAL T SHIRT COMPANY

DECORATION OPTIONS

Deboss

Uses a die that's heat-pressed into the material, creating a striking 3D appearance. Great choice for waterproof garments and other technical polyester fabrics.

Embroidery

High-value look! Embroidery uses thread colours to match any logo and includes up to 10,000 stitches in the price, offering a classic, detailed finish.

HXD

Add a new dimension with HXD, a unique method that creates a subtle pop from the surface for a modern, retail-inspired look that makes your logo stand out.

Laser

Perfect for technical fabrics, laser creates a permanent tone-on-tone look with a smooth, glossy finish. Can be applied almost anywhere, even over seams and zippers.

Transfer

Any size, same price! True Edge™ Transfer delivers sharp detail and precision, reproducing even tiny text and full-colour designs while working on areas embroidery can't reach.
