

SELECTING THE BEST SIZE FOR YOU

- To determine the best size for you, please follow these steps:
- Take your Chest and Hip measurements following the Stormtech *How to Measure and Fit Guide*.
 - Review your measurements against the Stormtech Sizing Chart selecting the size that best matches your measurements.
 - If some measurements are in one size and the remainder are in another size, select the larger size.
 - If you are on the borderline between two sizes, select the smaller size for a slimmer fit, or the larger size for a more relaxed fit.
 - These measurements are general guidelines. When in doubt, we recommend ordering size samples to determine best accuracy.

View our ***How To Measure and Fit Guide*** for more details on finding the perfect size
